LET'S TALK ABOUT THE 1951 RYERSON EXPANSIBLE FOLDER.

It's taken longer than usual to get it ready for mailing because, 1. I had difficulty in getting really good color plates. Yes, the Folder is sprouting out in some color this year. 2. I wanted it to contain at least fourteen pages of GROWING INSTRUCTIONS, covering every phase of Orchid Growing from planting the seed to caring for the Mature, Blooming Size plants.

And, in case you don't know, the project has proved darned expensive!

In the past, I've been happy to send Folders to anyone who asked for them, whether or not they had bought anything from me. It would be nice if I could continue this practice with the new "Technicolor", Loaded-with-Information Folder.

Or, would it?

Some of my Orchid Growing friends have given me advice that may be very much to the point. They say there are folks who don't really value a book unless they have to pay something for it. They say that the new Folder is worth much more than that, but surely anyone even remotely interested in Orchids would be willing to pay one dollar toward the cost of printing and mailing it to them.

I still contend that if you are one of my customers, you are entitled to receive the Folder free of any charge. And you will, unless you ask me NOT TO send it.

But, supposing you have not yet graduated to the "Customer" class by the time the Folder is ready to go into the mails? Would you consider it unreasonable to be asked to pay a one dollar "DEPOSIT" on it?

The one dollar to apply on your very first order amounting to ten dollars or more.

Whether or not you are a customer, and whether or not you are interested in receiving my 1951 EXPANSIBLE ORCHID FOLDER, I would appreciate your cooperation in answering the questions on the attached blank.

Yours sincerely,

DR:MT

Dear D.R.,

My interest in Orchids is: Commercial\_\_\_\_; Semi-commercial\_\_\_\_; Only a hobby\_\_\_\_\_.

At present I have approximately\_\_\_\_\_ Mature Plants; \_\_\_\_\_ Seedlings.

I grow them in \_\_\_\_\_ (Indicate hothouse, lath house, in the home, Wardian case, or any other.)

If I receive your 1951 EXPANSIBLE ORCHID FOLDER, I hope it contains \_\_\_\_\_

I am already one of your customers, having bought \_\_\_\_\_

from you. I am not yet one of your customers, so I enclose the one dollar deposit on the 1951 folder\_\_\_\_\_. I do not care to receive the Folder\_\_\_\_\_. I would like to have the Folder, but not enough to pay the dollar deposit for it\_\_\_\_\_.
